Summary

Computer Science graduate specializing in AI/ML with hands-on experience building high-performance cross-platform mobile applications. At Accelgrowth Technology, optimized React native based apps, maintained performance and reduced crash rates through efficient state management and API debugging. Built an AI-powered image-to-vector conversion tool using Python. Currently pursuing a Post Graduate Certificate in Advanced Computing at C-DAC. Backed by AWS and Cisco certifications in cloud, cybersecurity, with proven leadership as team captain in collaborative environment.

Experience

Accelgrowth Technology Pvt. Ltd.

May 2025 -- December 2025

React Native Intern

Hyderabad

- Designed and developed high-performance mobile applications using React Native, integrating REST APIs and backend services for seamless Android and iOS functionality.
- Worked extensively with Android Studio, TailwindCSS, and Firebase for development, testing, and deployment of cross-platform mobile applications.
- Optimized app performance by **35%** through code refactoring and efficient state management, enhancing load times and user retention.
- Collaborated with backend teams to debug and resolve critical API integration issues, decreasing app crash rate by **30%**.

Skills

Technical: React JS, React Native, TailwindCSS, REST API, Python, C++, HTML/CSS, JavaScript, SQL, MongoDB

Relevant Coursework: Data Structures, AI/ML, Object-Oriented Programming with C++ and Java, Database Management

Developer Tools: VS Code, Visual Studio 2022, Postman, Google Cloud Platform, Android Studio, MySQL Workbench

Education

Centre for Development of Advanced Computing (C-DAC)

Pune, MH

Post Graduate Certificate in Advanced Computing (PGCPAC)

Feb 2026 -- Present

Gyan Ganga Institute of Technology and Science

Jabalpur, MP

Bachelor of Engineering in Computer Science (AI/ML), CGPA: 7.32

November 2021 -- June 2025

Projects

Morph Craft | App Developer

November 2024

- Developed a high-performance application that converts standard images into vector images, ensuring fast and accurate vectorization with a user-friendly interface.
- Utilized Python, React Native, and PyTorch for AI/ML model implementation.

Extra-Curricular

Captain, Gyanutsav

2022 -- 2024

- Led the AIML Basketball Team to the semi-finals.
- Coordinated the Basketball Tournament, overseeing event logistics, team management, and overall execution.

Captain, E-sports Tournament

2023

Served as Team Captain in a competitive e-sports tournament, representing the college and leading the team in strategic gameplay.
